SUGGESTIONS AND FOOD PAIRING

Its perfect partner is the Argentine steak. It can also accompany gourmet style burgers and meals with mild curry sauces.

ELABORATION METHOD: TRADITIONAL

Fermentation takes place during 7 days in stainless steel tanks at controlled temperatures between 21/26 ° C. The process of maceration with the skins lasts between 7-10 days. Wine is pumped over to a another stainless steel tank to continue with the malolactic fermentation at around 18°C.

Bottle aging: One month

Aging potential: 1 year

TASTING NOTES

Wine of intense red color with violet and blue shimmerings. Range of young varietal wines to be drunk during the year of elaboration, thought as an every day wine and for any kind of event or gathering. With great presence of fruit, it is very fresh and easy to drink without complexities. It has a good body and structure, with soft and balanced tannins.
